Debleena Bose

AngularJS Lead | Senior Frontend Developer | UI Architect
debleenabose03@gmail.com | +91 7890739909 | Hyderabad, India | LinkedIn

SUMMARY

AngularJS Lead and Senior Frontend Developer with 5+ years of experience designing and implementing high-performance, scalable, and responsive web and mobile applications using **AngularJS** and **Angular (v7–17+)**.
Proven ability to architect modular UI systems, reusable components, and frameworkintegrated modules with a strong focus on maintainability and performance.
Highly skilled in collaborating with backend developers, designers, and product teams to deliver seamless and accessible user experiences.
Experienced in implementing **Test-Driven Development (TDD)** and **REST API communication** to ensure quality and reliability.

SKILLS

Frontend Frameworks: AngularJS, Angular (7–17+), TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind, PrimeNG, Angular Material
Architecture & Design: Scalable UI Architecture, Modular Component Design, Responsive Web Design, Accessibility (WCAG), UX Implementation
Testing & Tools: Jasmine, Karma, Protractor, Jest, GitHub, GitLab CI/CD, Jenkins
State Management: NgRx, RxJS, Signals
Collaboration & DevOps: REST APIs, Agile/Scrum, Continuous Integration, Code Reviews, Git, API Integration, Performance Optimization

WORK EXPERIENCE

Indian Political Action Committee | AngularJS Lead / Lead Associate (Dec 2022 – Present)

- Architected and developed scalable, high-performance **AngularJS** and **Angular** applications focusing on modular UI, responsiveness, and performance optimization.
- Led frontend architecture initiatives, establishing reusable component libraries and enforcing design and coding standards across teams.
- Collaborated with backend engineers to integrate **REST APIs** and ensure smooth data flow between the frontend and server-side layers.
- Implemented **TDD methodologies**, creating automated unit and **e2e test suites** using **Jasmine, Karma, and Protractor**.
- Managed **CI/CD pipelines** with **GitLab** and **Jenkins**, ensuring high-quality code delivery and rapid deployment cycles.
- Worked with design teams to convert **UI/UX wireframes** into responsive, accessible, and pixel-perfect layouts.
- Mentored junior developers, conducted code reviews, and drove performance and scalability improvements across applications.

Lolly.com | Senior Frontend Developer (May 2022 – Oct 2022)

- Developed an AI-powered CMS using **AngularJS** and **Angular**, improving scalability and user interface responsiveness by 25%.
- Integrated **RESTful APIs** and built dynamic views with advanced data binding and **RxJS**-based state management.
- Implemented testing best practices using **Jasmine** and **Protractor** for improved stability and reliability.
- Collaborated with UI/UX teams to deliver animations, transitions, and cross-browsercompatible layouts.

Indian Political Action Committee | Frontend Developer (Dec 2020 – May 2022)

- Built and maintained responsive **AngularJS** and **Angular** applications, integrating REST APIs for large-scale data management.
- Worked closely with backend teams to enhance API performance and optimize frontend data rendering.
- Adopted **TDD principles** and developed reusable test scripts using **Jasmine** and **Karma**.
- Refactored legacy code into modular components and improved maintainability through consistent UI patterns.

PROJECTS

- **Cornea Dashboard:** Migrating a **large-scale soon-to-be PAN-India demographic analytics dashboard** covering **23 districts and 294 assembly constituencies** to the latest Angular version, enabling role-based access for **4 user roles** and visualization of **multi-dimensional population data across states, districts, and regions**.
- **Appraisal Dashboard:** Developed role-based dashboards with **AngularJS**, **Angular 19**, **NgRx**, and **REST APIs**, improving transparency and usability by 40%.
- **Didir Doot v2:** Managed 500K+ users with scalable AngularJS/Angular UI components improving moderation efficiency by 50%.
- **People IPAC HRMS:** Automated HR workflows by integrating **RESTful APIs**, achieving 25% faster processing.
- **Shakespeare & Lolly Apps:** Created responsive and animated **AngularJS/Angular** UIs, reducing UI bugs by 35% and improving accessibility.

EDUCATION

Bachelor of Technology (CSE) – Jalpaiguri Government Engineering College **2016–2019 | CGPA: 6.81**
